Frontier AI Model Releases (2025–2026)

Model Provider	Model	Release Date	Cutoff Date	Cost of Tokens (Per 1M Input/Output)	Context Window	Type	When to Use This Model
Anthropic	Claude Opus 5.5	September 2026	June 2026	$8.00 / $40.00	1 Million	Proprietary / Multimodal	Elite multi-agent setups requiring deep analytical thinking, complex architecture planning, and long-form document synthesis.
OpenAI	GPT-6 Sol	September 2026	April 2026	$4.00 / $24.00	1 Million	Proprietary / Advanced Reasoning	Complex logic workflows and multi-turn conversational agents that require a balanced mid-tier cost profile.
Google DeepMind	Gemini 3.1 Pro	Mid 2026	January 2025	$2.00 / $12.00	1.04 Million	Proprietary / Multimodal Video	Video and massive codebase parsing where deep contextual memory is vital, utilizing its highly stable native processing window.
Meta	Llama 4 Scout	April 2025	August 2024	Free (Open Weights)	10 Million	Open-Weights Mixture-of-Experts	Extreme context deployments and private enterprise data operations where self-hosting is required to bypass per-token fees.
DeepSeek	DeepSeek V4 Pro	Mid 2026	Disclosed internally	$0.435 / $0.870	1 Million	Open-Weights / API	High-throughput production pipelines requiring deep reasoning at a fraction of the cost of mainstream Western models.
xAI	Grok 4.7	Mid 2026	May 2026	Platform Sub / API	2 Million	Proprietary / Connected	Real-time narrative tracking, social data graph analysis, and highly conversational custom workspace applications.
Alibaba	Qwen 3.5 Plus	Early 2026	Late 2025	$1.00 / $3.50	512K (Scales up)	Open-Weights / API	Multilingual applications focused on high-accuracy English-Chinese translations, specialized coding, and agentic workflows.
Mistral AI	Mistral Large 3	Late 2025	Mid 2025	$2.00 / $6.00	128K	Open-Weights /	Sovereign cloud compliance inside the EU, legal document processing,

						Commercial	and localized European language automation.
Zhipu AI (Z.ai)	GLM-5.3	Mid 2026	Early 2026	Free Tier / API	1 Million	Open-Weights Hybrid	Edge applications and visual reasoning tasks that heavily benefit from a robust open ecosystem infrastructure.
MiniMax	MiniMax M3	Early 2026	Late 2025	$0.30 / $1.20	1 Million	Proprietary / API	Interactive virtual characters, long-context roleplay applications, and creative writing generation at high token efficiency.
